GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the effective tax rate and rollback tax rate for the taxing unit.

This sample worksheet is for school districts only. Water districts as defined under Water Code Section 49.001(1) should use Comptroller Form 50-858 Sample Water District Rollback Tax Rate Worksheet. All other taxing units should use Comptroller Form 50-856 Sample Tax Rate Calculation, Taxing Units Other Than School Districts.

The Comptroller's office provides this sample worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

STEP 1: Effective Tax Rate (No New Taxes)

The effective tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the effective tax rate should decrease.

STEP 2: Rollback Tax Rate

Most school districts calculate a rollback tax rate that is split into two separate rates:

- 1. Maintenance and Operations (M&O): School districts must use the lesser amount of the following methods to calculate the M&O rate:
 - Four cents (\$0.04) PLUS current year's compression rate multiplied by \$1.50 (usually \$1) PLUS any additional cents approved by voters at a 2006
 or subsequent rollback election; OR
 - Current year's compression rate multiplied by six cents (usually four cents PLU) effective M&O recalculations.⁶

effective M&O rate which includes school formula funding

2. Debt: The debt tax rate includes the debt service necessary to pay the school district's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

In most cases the rollback tax rate exceeds the effective tax rate, but occasionally decreases in a school district's debt service will cause the effective tax rate to be higher than the rollback tax rate.

28. Total 2018 debt to be paid with property tax revenue. Debt means the interest and principal that will be paid on debts that: (1) Are paid by property taxes, (2) Are secured by property taxes, (3) Are scheduled for payment over a period longer than one year, and (4) Are not classified in the school district's budget as M&O expenses. ⁶ Tex. Tax Code § 26.08(n)

A school district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The school district's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The school district must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This step should only be completed by a school district that uses M&O funds to pay for a facility, device of method for the control of air, water or land pollution.

NOTE: If the district's 2017-18 adopted M&O tax rate was less than its 2017-18 Effective M&O Tax Rate, the 2017-18 revenue below can be computed as if the district's 2017-18 adopted M&O tax rate was its 2017-18 Effective M&O Tax Rate. For this purpose only and if applicable, go back and enter the district's 2017-18 Effective M&O Tax Rate (regardless of how high the rate might be) instead of the district's adopted 2017-18 M&O tax rate in Cell E58 of the 'Data Entry - SOF' tab. Then, on that same tab in Cell E59, enter an estimate of the amount of M&O taxes that would have been collected at that higher rate. To get the 2017-18 Effective M&O Tax Rate, use the template that you worked last summer. It will be on a tab labeled 'EffectiveM&ORate1718'.

39	2018-19 Effective M&O Tax Rate (Line 37 / (Line 38 / 100))	0.9333

NOTE: The Comptroller's Truth-in-Taxation (publication?) should contain the official rollback tax rate worksheet for 2018-19.

On last year's worksheet, Line 27 no longer referenced a Rate A or a Rate B as in the past. Instead, Line 27 stated "Use the lesser of the maintenance and operations rate as calculated in Tax Code Section 25.08(n)(2)(A) and (B)."

The following is your UNOFFICIAL M&O rollback rate. It should match the rate YOU apparently will have to calculate for Line 27 of the rollback tax rate worksheet, assuming it stays the same as last year's. Since no direction was given last year for deriving Line 27, I'm assuming no direction will be given this year, so you are apparently on your own in determining Line 27.
